

AMERICA FIRST
CONSERVATIVE REPUBLICAN
STATE REPRESENTATIVE

Over the past two years, I've seen firsthand how Austin insiders and entrenched special interests work to slow down conservative reform. **The Democrats learned the hard way: every time they tried to silence us or block the will of the people, they only made us stronger! The harder they pushed, the more fired up we got!**

During the 89th Session, our Grassroots Conservatives UNITED and proved that when we push hard, we can make real progress, and now we must build on that momentum heading into the 90th.

We passed major conservative bills: Secured our Border, Passed School Choice to Empower Parents, Protected our Grid from Cyberattacks, Kept Texas Land IN Texas Hands by blocking Hostile Foreign Ownership, Strengthened Trafficking Laws with Background Checks and Enhanced Criminal Penalties. This foundation matters — because it sets the stage for the bigger, bolder fights ahead.

In the 90th Legislature, my mission is clear: **Texans Over Taxes!** It's time to Eliminate Property Taxes once and for all, Ban Taxpayer-Funded Lobbying, Secure Our Elections, and Defend Our Border from the Criminal Cartels: Trafficking Children, Fentanyl and Illegal Narcotics into our Texas communities. Our State is currently number #1 in attracting Data Centers because of our resource rich environment, and the explosive growth of AI Technology. We must protect our water rights from reckless development and ensure that our energy resources are secure and reliable in order for this new industry to prosper and keep Texas at the forefront of this Energy Revolution. These issues aren't abstract — they impact our Families AND our Land, as well as our way of life right here in House District 58.

I am running for re-election because our work is not finished. **President Trump** endorsed my campaign because he knows I am not afraid to tell the truth and fight the Austin Swamp. Together, we will secure Texas' future and **MAKE OUR GOVERNMENT WORK FOR THE PEOPLE AGAIN!**

If you share this vision, I invite you to join our campaign, spread the word, and help send me back to Austin so we can finish the job the voters sent me to do. If you ever need assistance, want to share an idea, or get involved, please reach out to me at any time.
